

Call for Team Members - Members Platform Developers Team

Dear all,

We are very excited to open the call for other EYP members to join the Members Platform Developers Team! We are looking for **9 passionate individuals** with an interest in different areas of coding. As a team member, you will be participating in regular team meetings, as well as department meetings.

The working departments and their responsibilities are listed below:

1. **Front end development:** This department will be mainly focusing on the release of new features, as well as the improvements of the existing ones. The front end development department will also be responsible for ensuring the Members Platform website is accessible on different devices, and regularly check and improve the website's performance.
2. **Back end development:** This department will be responsible for managing databases of the Members Platform website, as well as checking data before it is submitted in the databases. As a member of this department, you will also be working side by side with the front end developers in order to ensure that the data management is functioning on all platforms.
3. **UI/UX Design and Social media management:** This department is primarily responsible for curating the team's social media presence, designing official documents produced from this team, as well as taking care of design issues with the Members Platform website.

Please note that prior experience with coding is not compulsory, and that we are open to receiving applications from people with diverse backgrounds. Motivation and consistency are values that we are looking for in applicants. As a future team member, you should be able to commit at least an average of 15 hours per month on this project, however please be aware that this average might slightly vary depending on your working department.

The deadline for submitting your applications is **Sunday, October 22nd, 23:59 CET**.

Best of luck and we are looking forward to reading your applications!

Warm wishes,

Bahar, Gent, Natalia and Nico.

Note: In the next pages you may find the application form for the department you are applying for. Please make sure to make a copy of this document and delete the other pages

(keeping only the application form page) before you submit it. Make sure to use Source Sans Pro, 12 pt in your answers.

Application form for the front end department applicants

Full name of the applicant:

Nationality:

National Committee¹:

Email address:

Phone number²:
