

European Youth Parliament (EYP)

Empowering Youth Across Europe

About Us

The European Youth Parliament (EYP) is a unique platform that empowers young people across Europe to actively engage in democratic processes, develop critical thinking skills, and create common understanding among different cultures. Operating under the umbrella of the Schwarzkopf Foundation, the EYP organises youth-led events that bring together young people from over 40 countries, creating an inclusive space for dialogue and innovation.

Our Mission

At the EYP, we are committed to equipping the next generation of young Europeans with the tools and knowledge to become active, responsible citizens. By promoting European values, intercultural dialogue, and democratic engagement, we inspire young people to shape a sustainable and united future, one they can take ownership of together.

What We Do

- **Educational Sessions:** Organising over 350 events annually, EYP fosters critical debate on pressing European and global issues.
- **Youth Empowerment:** Creating opportunities for young people to lead discussions, craft policy proposals, and develop leadership skills.
- **Focus on Diversity:** Welcoming participants of all backgrounds to ensure every voice is heard.
- **Thematic Projects:** Continuously developing new projects to empower communities, improve sustainability, and promote democratic values and fundamental rights. You can read more about our current projects [here](#).

Our Impact

- **Reach:** Present in over 40 countries, with more than 25,000 participants annually.
- **Alumni:** Over 300,000 alumni shaping their communities and careers with skills developed through EYP.
- **Events:** With at least 350 events a year, ranging from regional to international, each activity empowers participants to think globally and act locally.
